

PHIL 160 section 01
Philosophy of Science
San José State University
MW 1500-1615 (in person)
Fall 2025
Professor Andrew Delunas
andrew.delunas@sjsu.edu

A philosophical inquiry into scientific knowledge and practice, including:

- The line between science and pseudo-science
- The role of empirical evidence in knowledge-building
- Scientific theory change
- Social factors in scientific knowledge-building
- Whether scientific theories need to be true to be useful
