

**San José State University**  
**Urban and Regional Planning Department**  
**URBP 223: Housing Economics and Policy**  
**Spring 2025**

**Course and Contact Information**

Instructors: Dr. Gordon Douglas and Dr. Shishir Mathur  
Office location: 76 S. First St. Studio (Dr. Douglas); WSQ 216 E (Dr. Mathur)  
Telephone: please email Dr. Douglas ; 408-310-7856 (Dr. Mathur)  
Email: gordon.douglas@sjsu.edu ; shishir.mathur@sjsu.edu  
Office hours: Tuesdays, Wednesday and Thursdays by [appointment](#) (Dr. Douglas);  
Friday 4 pm – 6 pm and by appointment (Dr. Mathur)  
Class days/time: Wednesday 3 pm to 5:45 pm  
Classroom: WSQ 111  
Prerequisites: None

**Course Catalog Description**

Overview of the housing situation in the United States; examination of the theory of housing markets and framework for analyzing housing policies; in-depth study of the problem of affordable housing and critical examination of the steps that the public, private, and non-profit sectors have taken to alleviate the problem.

**Course Format**

In-person course.

**Course Web Page and MYSJSU Messaging**

Course materials such as syllabus, lecture notes, assignment instructions, etc. are at:  
<https://sjsu.instructure.com/courses/xxxxx>

You are responsible for regularly checking your email that you provided on MySJSU to learn of any updates. For help with using CANVAS see [Canvas Student Resource page](#).

**Course Learning Outcomes (CLOs)**

What do we mean by the term “housing”? How do housing markets work? How is the price of a home determined? What factors impact the demand, supply, and accessibility of housing? What are the social implications of housing and housing affordability, ownership, and tenancy? How do policymakers, developers, and communities understand and address the need for affordable housing? Why is housing important from a planning perspective? This course aims to discuss these and such other questions/issues related to housing in the United States.

The course begins with an overview of the housing situation in the United States. It then examines the theory of housing markets, and provides a framework for analyzing various housing policies. Finally, it examines the problem of housing affordability and other socioeconomic challenges related to how housing gets built, owned, sold, and occupied in the U.S., critically evaluating the measures public, private, and non-profit actors have taken to address them.

This syllabus is the intellectual property of Drs. Douglas and Mathur and should not be used in part or entirety by any other instructor without Drs. Douglas and Mathur’s prior permission.

After completing this course, students will be able to:

- 1) Understand how market-driven, and regulatory demand and supply side policies impact housing prices;
- 2) Critically evaluate federal low-income housing policies;
- 3) Analyze a jurisdiction's housing policies, and understand how regional- and local-level planning policies impact housing markets and availability of housing; and
- 4) Suggest ways to address affordable housing shortages at the local-level
- 5) Describe the scalability of housing policy approaches across geographic and political contexts.

This course partially covers the following PAB Knowledge Components: 3B, 3D and 3E.

3B) Governance and Participation: appreciation of the roles of officials, stakeholders, and community members in planned change.

3D) Growth and Development: appreciation of economic, social, and cultural factors in urban and regional growth and change.

3E) Social Justice: appreciation of equity concerns in planning.

### **Required Texts**

Schwartz, Alex. 2021. *Housing Policy in the United States (4<sup>th</sup> ed)*. Routledge, New York. (All the required chapters from this book are uploaded to the Canvas course page. See Files→Readings.)

### **Other Assigned Readings**

Please see the Weekly Course Schedule below. Readings available directly from the course Canvas page have the word "(Canvas)" at the end of the citation; all other readings are available via the library's website, elsewhere online, or in the two required texts above.

A quick guide on how to access Canvas is at <http://www.sjsu.edu/ecampus/docs/Canvas-Student-Quick-Guide.pdf>. Instructor may also hand out a small number of additional articles in class, and at times may ask you to read material available on the web.

### **Other technology requirements / equipment / material**

Personal computer and good internet connection for work done outside the in-person class sessions and for any on-line class sessions.

### **Library Liaison**

The SJSU Liaison Librarian for the Urban and Regional Planning Department is Lauren De Celle. If you need research assistance, you can contact her at [lauren.decelle@sjsu.edu](mailto:lauren.decelle@sjsu.edu) or 408-808-2621.

### **Course Requirements and Assignments**

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Your grade for the course will be based on the following assignments and other activities:

This syllabus is the intellectual property of Drs. Douglas and Mathur and should not be used in part or entirety by any other instructor without Drs. Douglas and Mathur's prior permission.

<b>Assignments</b>	<b>Percent of Course Grade</b>	<b>Course Learning Objectives Covered</b>
Assignment 1: One discussion questions and narrative per class	10%	1-4
Assignment 2: In-class discussion	15%	1-4
Assignment 3: Engagement Unit Activity 1: Attend a Public Meeting and Write a Reflection Paper	10%	1-4
Assignment 4: Engagement Unit Activity 2: Participate in One Role Playing Group with a Guest Lecturer & Write a Reflection Paper and a Synthesis Paper	15%	1-4
Assignment 5: Paper 1	25%	1-3
Assignment 6: Paper 2	25%	1-5

This class will be a combination of lecture by the instructor, in-class discussion, and presentations by the guest speakers. You have to read the assigned material *prior* to attending that week's class, and participate in class discussion.

Assignment 1: For every class marked "Discussion Seminar" in the weekly schedule, each student is required to contribute one question that they would like to see discussed in class. In addition to the question, describe the main points that you would like to see discussed as part of the discussion generated by that question. Write one or two paragraphs (75-100 words). This question will be in addition to any question you might want to ask to clarify a concept/part of the reading. The question and the description should be emailed to the instructor for that week by **Tuesday night** with the subject line "First Name Last Name: Week "x" Discussion Question and Narrative" where "x" stands for the week number. See the weekly schedule for the week number.

The weekly discussion question and narrative submissions will be graded based on completion and as well as demonstrated thoughtfulness of the reading material based on the level of insight and nuance reflected by the submission.

Assignment 2: In-class discussion requires participation, but more importantly thoughtful reflection. You will not be assessed on the amount of participation per se, but rather your contribution to the course learning objectives and class discourse through insightful questions and comments.

Assignments 3 and 4 constitute the engagement unit, for which you will have to undertake additional activities outside the class hours. These activities include attending public meetings related to housing issues; writing memos critically analyzing the issues discussed in these public meetings; providing peer responses to such memos written by fellow students; and revising your memo based upon the peer responses. Details on how to complete these activities will be provided on handouts distributed later in the semester.

Assignments 5 and 6:

This syllabus is the intellectual property of Drs. Douglas and Mathur and should not be used in part or entirety by any other instructor without Drs. Douglas and Mathur's prior permission.

Assignment 5 will be a memo characterizing the housing situation of a city or county of your choice and critically examine the affordable housing situation of that city or county. Assume that our audience is a busy policy maker who knows little about housing issues.

Assignment 6 will be a policy proposal to address affordable housing needs for the same city or county studied in Assignment 5. Students will pick one or more of the alternative housing ideas and policy innovations discussed in the course and describe how it could be put into action in their chosen city or county, how it could be scaled to state and other contexts, and what the impacts (and potential challenges) could be.

### **Final Examination or Evaluation**

Submission of “Assignment 6” and “Course Reflection” will constitute the culminating activities for this course.

### **Grading Information**

Grades for the course will be assigned based on your percentage of total points earned on all assignments according to the following distribution:

*A plus = 100 to 98*

*A = 97 to 93 points*

*A minus = 92 to 90 points*

*B plus = 89 to 87 points*

*B = 86 to 84 points*

*B minus = 83 to 81 points*

*C plus = 80 to 78 points*

*C = 77 to 73 points*

*C minus = 72 to 70 points*

*D plus = 69 to 67 points*

*D = 66 to 63 points*

*D minus = 62 to 60 points*

*F = 59 points or lower*

### **Other Grading and Assignment Issues**

Due to the progression of the course topics and joint teaching between two instructors, late work will not be accepted, except with the instructor’s prior permission.

### **University Policies**

Per [University Policy S16-9](#), relevant university policy concerning all courses, such as student responsibilities, academic integrity, accommodations, dropping and adding, consent for recording of class, etc. and available student services (e.g. learning assistance, counseling, and other resources) are listed on [Syllabus Information web page](#) (<https://www.sjsu.edu/curriculum/courses/syllabus-info.php>). Make sure to visit this page to review and be aware of these university policies and resources.

### **Academic Integrity**

As a student, your commitment to learning is evidenced by your enrollment at San Jose State

This syllabus is the intellectual property of Drs. Douglas and Mathur and should not be used in part or entirety by any other instructor without Drs. Douglas and Mathur’s prior permission.

University. The [University Academic Integrity Policy F15-7](#) requires that you be honest in your academic course work. Faculty members are required to report all infractions to the Office of Student Conduct and Ethical Development. Visit the [Student Conduct and Ethical Development website](#) for information.

### **Plagiarism and Citing Sources Properly**

Plagiarism is the use of someone else's language, images, data, or ideas without proper attribution. It is a serious offense both in the university and in your professional work. In essence, plagiarism is both theft and lying you have stolen someone else's ideas, then lied by implying that they are your own.

**Plagiarism will lead to grade penalties and a record filed with the Office of Student Conduct and Ethical Development. In severe cases, students may also fail the course or even be expelled from the university.**

**If you are unsure what constitutes plagiarism, it is your responsibility to make sure you clarify the issues before you hand in draft or final work.**

Learning when to cite a source and when not to is an art, not a science. However, here are some common examples of plagiarism that you should be careful to avoid:

- Using a sentence (or even a part of a sentence) that someone else wrote without identifying the language as a quote by putting the text in quote marks and referencing the source.
- Paraphrasing somebody else's theory or idea without referencing the source.
- Using a picture or table from a webpage or book without referencing the source.
- Using data some other person or organization has collected without referencing the source.

If you still have questions, feel free to talk to the instructor. There is nothing wrong with asking for help.

### **Citation style**

It is important to properly cite any references you use in your assignments. The Department of Urban and Regional Planning uses Kate Turabian's *A Manual for Writers of Research Papers, Theses, and Dissertations*, 8th edition (University of Chicago Press, 2013, ISBN 780226816388). Copies are available in the SJSU King Library. Additionally, the book is relatively inexpensive, and you may wish to purchase a copy. Please note that Turabian's book describes two systems for referencing materials: (1) "notes" (footnotes or endnotes), plus a corresponding bibliography, and (2) in-text parenthetical references, plus a corresponding reference list. The instructors prefer the latter.

This syllabus is the intellectual property of Drs. Douglas and Mathur and should not be used in part or entirety by any other instructor without Drs. Douglas and Mathur's prior permission.

# URBP 223: HOUSING ECONOMICS & POLICY

## SPRING 2025 WEEKLY COURSE SCHEDULE

(Subject to change with fair notice. Instructor will notify students of the changes in the class and by uploading a revised syllabus on the course webpage)

Note: Readings available directly from the course Canvas page have the word “(Canvas)” at the end of the citation; all other readings are available via the library’s website or elsewhere online, as linked.

### **Week 1. January 29** (Drs. Douglas and Mathur)

Class type: Lecture

*Course Overview, Assignments 1 and 2 reviewed*

### **Week 2. February 5** (Dr. Mathur)

Class type: Discussion seminar

*Overview of housing situation*

#### Required reading:

The Joint Center for Housing Studies. 2024. *State of the Nation’s Housing 2024*. Cambridge, MA: Harvard University.
