

Master of Science, Geographic Information Science (MS GISc)

Competitive Scholarships for the First MS GISc Cohort! (qualified applicants)

Why MS GISc at SJSU?

- **Efficient Pathway to Advanced Skills:** The one-year structure allows students to quickly gain cutting-edge skills in GIS and apply them in diverse fields.
- **STEM OPT Extension:** Ideal for international students looking to extend their time in the U.S. post-graduation and gain valuable work experience.
- **Comprehensive Curriculum:** The program's broad coursework ensures students are well-rounded and prepared for various GIS roles in industry, government, and research.
- **Career-Focused:** Emphasis on real-world applications and problem-solving with GIS technology, aligning with growing demands in numerous sectors.

Potential Career Paths:

Geospatial Analyst
GIS Developer
Cartographer
Urban Planner
Environmental Scientist
Remote Sensing Specialist
Geospatial Data Scientist
Location Analyst
Transportation Planner
Disaster Response Specialist
GIS Manager
Academic Researcher
Academic Professor

Fall 2025 Application Deadlines & Tuition Deadlines

Domestic students deadlines:

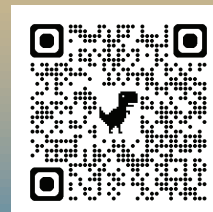

July 1, 2025 (application) July 20, 2025 (documents)

International students deadlines:

April 1, 2025 (application) April 20, 2025 (documents)

Tuition Fees Estimate AY 24-25 (full time 30 units)

- **2024 Tuition for California/domestic residents:**
\$9,934 (total per year/program)
- **2024 Tuition for non-California residents and international students:** \$22,534 (total per program)

Skills Earned:

Technical Skills: Proficiency in various GIS software

Analytical Skills: Ability to analyze spatial data and interpret results.

Communication Skills: Effectively present findings through maps, reports, and presentations.

Project Management: Ability to manage GIS projects from inception to completion.
